FAMILY THERAPY/PARENT SUPPORT GROUPS

As a service to students and their families, Joseph Academy offers monthly family therapy sessions. The parents or guardians will be contacted shortly after the student begins attending Joseph Academy to set up this appointment.

In addition, Parent Support Groups are offered on a monthly basis. These groups provide an opportunity for parents/guardians to meet and discuss concerns, share ideas and focus on parenting skills and issues. Meetings are generally held on the first Tuesday of the month from 7:00 to 8:00 pm. Parents needing transportation may call school to set up a ride

It is important that you attend an individual session with your child and his/her therapist as well as attend the Parent Support Group each month. By working together we will be helping our students achieve their goals for success in school
